

During this half-term, we have been exploring the topic of wolves; learning about how they are misunderstood in children's stories through diary entries and writing factual reports about real wolves. We have been working extra hard to edit and improve our work.

Dear Diary,  
 What a horrible day we've had!  
 I went to Mrs Goose's house I did  
 my homework & had a picnic to the goosling  
 but Mr Goose was angry with me  
 then they went inside and said  
 to me go away get away  
 never come back again to me  
 so then I went to the chicken  
 house they wanted a babysitter  
 and I said can I please  
 please? and the wolf said  
 Mrs chicken's babies and her to  
 ah then they died

Pack life wolves

Wolves live in a group called a pack  
 Wolves are the strongest wild dogs  
 in the world.

Pack life

Wolves live in groups called  
 packs. They are normally from the  
 same family <sup>usually</sup> there can be two to twenty  
 wolves in a pack. Sometimes not from  
 the same family.

Baby Wolves

Baby wolves are called cubs or pups.  
 Mother wolves can have up to six  
 babies at a time. Baby wolves  
 can't see or hear for 2 months.

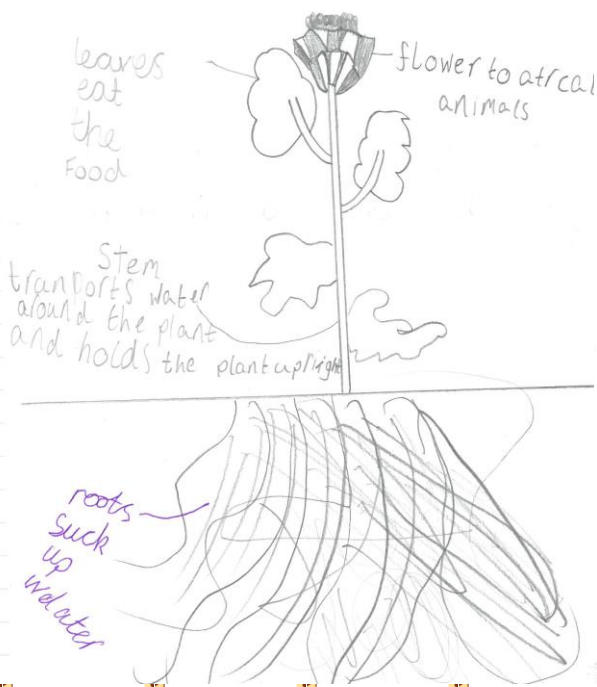

Dear Diary,

What a <sup>terrible</sup> day I've had! Everyone  
 is ~~stom~~ ignoring me but I'm trying so <sup>hard</sup>  
 to be good. Nobody will just say a word  
 to me just a chant to annoy me. I'm  
 just so lonely not a single squirrel will  
 play with me. I tried Mrs Goose's house &  
 she and her gooslings <sup>ignored</sup> me. and  
 Mrs chicken and her chicks, they <sup>ignored</sup>  
 me as well. But maybe I'll have a friend  
 after all.

Did you know...  
 Wolves lived  
 before humans did!

In science, we continued look at the different parts of a plant and did an experiment to see where Marigolds grow best.

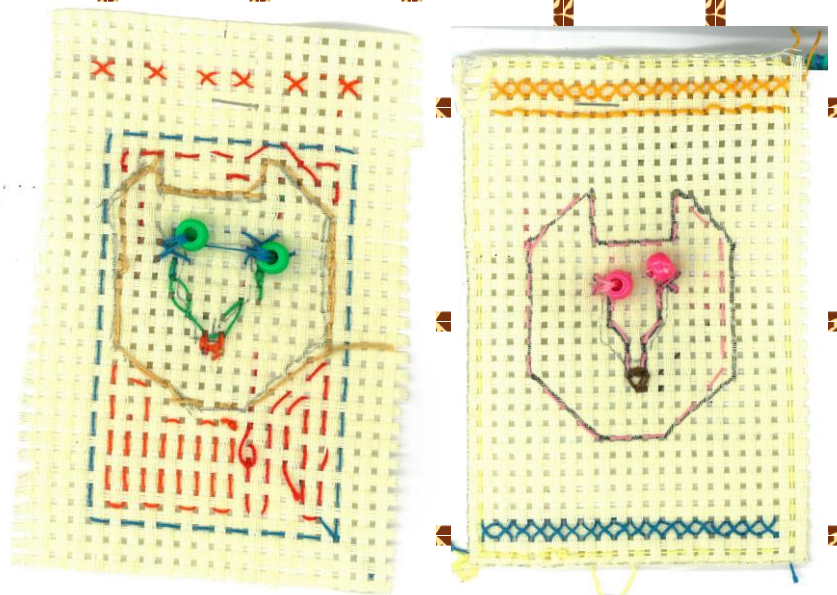

We are going to test plants in different conditions to compare how they grow. We will keep one by a radiator, one in the fridge and one in an airtight box.

Results:

	Marigold 1- control	Marigold 2- Radiator
After 4 week - description	Happy strong colourful Healthy	Dead hopeless crispy withered brown
After 4 week - drawing		
	Marigold 3- Fridge	Marigold 4- vacuum
After 4 weeks - description	unhealthy sad sailed dying	Bit healthy unhealthy sad
After 4 weeks - drawing		

In design and technology we learnt sewing skills and created wolf faces using different types of stitching.

We've learnt lots of interesting facts and can't wait to explore The Glorumptious World of Dahl next term!
