

Scrumptious Scones

Do you say scone or sconer?

We decided that it should be scone (with the split digraph) as this is what we have been learning in our phonics lessons.

We tasted lots of different ingredients before we decided which flavours we were going to add.

Some of us liked all of the flavours, some of us none!

We learnt how to use the claw and bridge method of cutting with a knife. We were very careful and still have all our fingers left!

In Computing, we designed our packaging logos. We needed to include all the ingredients on our packaging, just in case someone had an allergy.

Our Parents and Carers came to taste our final product. They evaluated it and decided how much they were prepared to pay for our scones.

Thank you for coming to taste our scones. Maybe next year we will set up our own restaurant. Move over Delia!
