

Pandas class Autumn 2016

In Science this half term, we have been investigating the Seasons, plants and trees. The children particularly enjoyed looking at, identifying and labelling leaves. They also loved selecting a class tree: we are going to monitor its changes throughout the year.

We visited Hellesdon Library's Vintage Day in October. The children had lots of fun looking at books, riding on the reading train and were entranced when the librarian showed us toys from the past. This doll is 60 years old!

The children couldn't stop reading, even on our return to school!
