

## Food, Glorious Food!

This half term, Pandas class has been exploring food: where our food comes from, and how we choose what to eat.

The children enjoyed growing their own beans. We experimented by placing plants in different locations. We observed the plants' growth carefully, measuring and recording the results.

The children were very adventurous and tasted lots of new ingredients to possibly include in their scone recipes- even parsley, red onion and pepper. We also tested some foods from the 4 countries of the United Kingdom. Shortbread from Scotland proved most popular!

We explored why we choose the food we do to eat. We discussed healthy vs less healthy foods, and decided that everyone should eat a balanced diet.

The children also looked at packaging and advertising. We designed our own posters and packaging for our scones.

Thank you to all the grown ups who came to the Super Scone Tea Party. We hope you enjoyed it!
